El Paso Office Will Likely Be Modeled After That of Toledo, Ohio.

The site for El Paso's new postoffice will be selected soon. James C. Plant of the office of the supervising architect at Washington. D. C., accompanied by his son, Leland G. Plant, arrived in the city Thursday morning from San Antonio. He comes to make an inspection of the sites offered

as locations for the new building. During his stay in the city, which will be several days, Mr. Plant's headquarters will be at hotel St. Regio.

The sites that have been offered for the postoffice number about a dozen and it will take some time to complete the

Mr. Plant was met by postmuster J. A. Smith, who is showing him something of the El Paso valley before he gets down to the business of his mission. After leaving El Paso Mr. Plant will go to several points in Arizma and New Mexico to inspect sites, but he may revisit El Paso on his way back to Washington before Desember 1. It is semi-officially intimated that the

new postoffice will be referred after the postoffice at Poleto, Ohio, as it is said that the type of ouilding will answer the requirements of local demands. The Toledo office is a large one-story structure, but has many new conven-iences and arrangements for expediting the business of the office. The new building will be occupied only by the postoffice and such a building, covering the ground of required specifications, would serve local demands for many years to come. Upon the evacuation of the federal building in which the post-office is now located, the first flour will be turned over to the customs Jepartment offices and the immigration and re-

# clamation offices will be as abled under the roof of the old federal building. FIND AN AMERICAN
